The New Law Office

We have rebranded our offices to focus on personal injury claims, assisting those who have been injured due to the carelessness of another in receiving justice.

We are adamant about safeguarding the rights of those who have been harmed by the negligence of others.

We are committed to ensuring that each client is fully protected. We defend not only your rights, but also your future, since we genuinely care about you, your family, and how this circumstance has impacted your life.

Our firm handles all forms of personal injury cases, such as slip/trip and fall accidents, car accidents, assaults and battery, premises liability, dog attacks, wrongful death, and products liability.

We intend to locate the party responsible for your damages and compel them to reimburse you.

Seasonal Tips

After the Hurricane

Just because Hurricane Ian has passed, doesn't mean everything goes back to normal. If you were evacuated, you need to return to your home where you need to assess the damages. Here a few helpful tips for returning home after a hurricane.

Drive with Caution – Signs and roadways may have been washed away so be extra vigilant with cars around you.

Stay Away from Pooling Water – Standing water can be contaminated from bacteria or germs or electrified from a downed power line.

Do Not Enter Damaged Buildings – Any building that has sustained damage will need to be assessed by professionals. If your home or apartment building has damage, you will need to stay somewhere else until it is deemed safe.

Exciting Recipe
